Dear SOF Parents,

11th and 12th grade students complete internships in career fields of interest for academic credit through School of the Future's Internship Program. I am reaching out because I have 11th/12th grade students looking for the opportunity to volunteer/intern in the following fields:

Physical therapy

Accounting

Anthropology

Engineering

IT/Programming

Video Game Design

Nonprofits (youth or environment)

If any of you work in these fields, or have connections to people in these fields, and might consider letting one of our wonderful students observe/volunteer, please get in touch! I am happy to provide more information about the internship program, give information about interested students including resumes/recommendations, and answer any other questions.

I would love to hear from professionals in other fields who are interested in having a student intern as well!

Thank you for any assistance you can provide with giving our students the opportunity to take their learning outside the classroom. Some of the best internships come through our network of parents!

Sincerely,

Emily Birden

Internship Coordinator
