

**SCHOOL**  
OF THE  
**FUTURE**

October 2018

Dear Friend of School of the Future,

On Tuesday, March 26th, 2019, **School of the Future** will be holding our Spring Benefit. This event raises 1/3 of the PTA's budget and directly benefits the strong academic and enrichment programs that School of the Future offers its students.

SOF is a small, secondary public school that serves children from sixth grade to twelfth grade in Manhattan's District Two. The school is a dynamic learning community, led by a staff made up of dedicated, intelligent, and caring professionals. SOF is a college preparatory school that offers rigorous academics geared toward college expectations. Many aspects offer a unique and deeply connected student experience, including an average class size of twenty-five; the prioritizing of critical and creative thinking; strong teacher collaboration; a diverse, integrated student body; and the ability to see and know students well as learners *and* individuals. Students are afforded many special opportunities that expose them to the richness of world beyond traditional school. Examples include internships, a strong art and theater program, a budding music program, a computer science program, competitive sports, courses at local colleges and frequent field trips, including trips to other US cities. Close to 100 percent of the graduating seniors go on to college, many with scholarships!

As you can imagine, it is very difficult for school budgets to support this level of enrichment and that is where the **School of the Future Parents Association** steps in. With your help and support, we can continue to make the most of our student's potential.

We thank you in advance for your consideration.
