

2020

## SENIOR SPOTLIGHT

### JERRY CHEN

**Nickname:** Jerrbear

**GPA:** 92%

**College:** University at Stony Brook

**Major:** Biology

**Career Plans:** Marine Biology field

**Plans after graduation:** Quarantine

**Bucket List:** Travel, have fun

**Extracurriculars:** Chess, Games Club

**Favorite Class:** Neuroscience and Gym

**SOF Faculty Influences:** Ms. Wang  
and Mr. Longino

### Favorite SOF memory

Hanging out after school with Samaria, Max and Chris.

---

### Advice I would give my freshman self

"Grow up"

---

### What will you miss most?

My classmates and after school talks

---

### Teacher quote

*"I thoroughly enjoyed my time teaching Jerry last year. He can be hilarious, but is also very mature and always had a keen awareness of when it was time to be serious. He is extremely intelligent, highly inquisitive, kind and compassionate. He's also a talented artist, and I loved seeing it expressed in his classwork and projects. I am really going to miss seeing Jerry (and his "fishy dance") around the building next year, but I am eager to see how he realizes his vast wealth of potential in the next phase of his life." - Mr. Longino*
