Get my driver's license, hangout with friends, travel, and start college in the fall.

Favorite SOF memory

Reading my speech in front of SOF to be the Student Body President, and joining the "Pippin" musical in 10th grade.

Advice I would give my freshman self

"Focus more on my academics/grades, practice time management, make as many memories with friends and don't waste time investing in something or someone that won't benefit you."

What will you miss most?

Getting ice coffee before going to school, going to Felix's office during study hall, hanging out at the bus stop after school, rushing back to school from Wendy's, Mr. Copeland knocking on objects, listening to Coach Ian's motivational lectures, organizing parties/ events for middle school students, friends, and being a part of the SOF environment.
