Dear Parent/Guardian:

There are many children in New York City that do not have health insurance coverage. Almost all children up to the age of 18 are eligible for public health insurance for free or at low cost to you, regardless of immigration status.

The New York City Department of Education's Office of School Health is working to provide access to public health insurance for all students and their families. In order to ensure that every child has health insurance coverage, each school has been assigned a health insurance enroller. *Please complete, sign and return the form below to me.* If you have requested more information about health insurance coverage an enroller will contact you.

Sincerely,
**SCHOOL OF THE FUTURE:
